Enhancements

Delivery Detail - Viewable

- Updated the ticket preview to show the information collected in the extra fields (including phone) for home delivery and a club location.

Use Case: Previously, when Delivery orders were placed, info pertaining to contact info, delivery location, etc, was not easily viewable. Now, quickly view the info contained in Club defined delivery fields in the Admin Dashboard. (Note - this info will be viewable in Office in a future Office release).
